

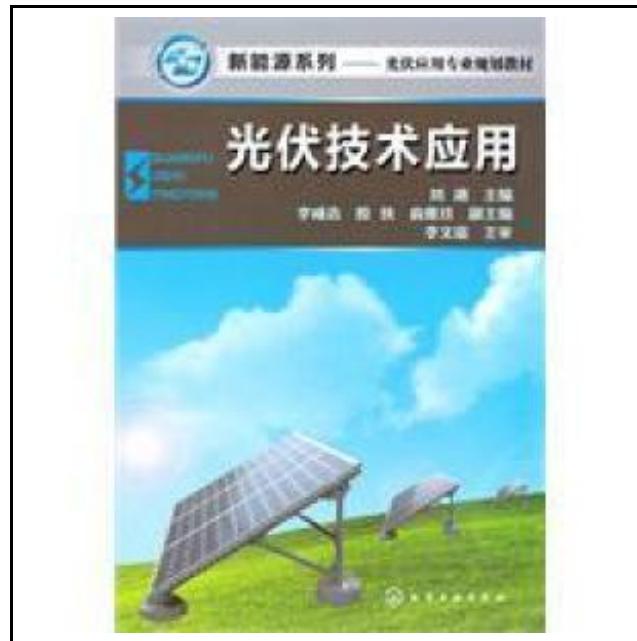

## Photovoltaic technology (PV application of professional planning materials) New Energy Series

Filesize: 1.85 MB

### ***Reviews***

*Very useful to any or all type of people. This is certainly for those who statte there was not a worth reading through. You can expect to like how the writer write this pdf.*

## PHOTOVOLTAIC TECHNOLOGY (PV APPLICATION OF PROFESSIONAL PLANNING MATERIALS) NEW ENERGY SERIES

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 158 Publisher: Chemical Industry Pub. Date :2011-07-01 version 1. Photovoltaic technology is a professional solar photovoltaic relevant professional foundation courses. Book. the basic process of light from the sun. starting about the characteristics of solar radiation. and the PN junction semiconductor based solar cell principles. characteristics and design. the assembly of solar cells and modules. PV system design and application. Photovoltaic technology not only as a new energy-related professional schools of professional materials. and also as a new energy photovoltaic engineering and technical personnel and skilled workers. training materials and reference books. Written by chief editor Liu Jing. Li Xian Hao. Yin Xia. Yu Yazhen deputy editor. Contents: characteristics of the learning environment a solar light and its properties and applications of knowledge 1.1 1.2 wave thermal radiation and understanding radiation reaching the ground 1.3 1.4 1.5 impact factor of solar radiation and greenhouse effect of human activities. daily exercise and the Earth System 1.6 1.7 calculated sunshine data photovoltaic technology and quantum mechanics 1.8 Exercise 1 learning environment two silicon semiconductor materials with amorphous silicon materials 2.1 2.3 2.2 type semiconductor conversion of light energy absorbed by 2.4 electron-hole pair generation and recombination photovoltaic and 2.5 PN junction Problem 2 solar cell performance of 3.1 learning environment three light spectral response of 3.2 3.4 3.3 the influence of temperature effects of parasitic resistance exercises 3 learning environment four technical specifications and design of solar cell conversion efficiency 4.2 4.1 4.3 optical loss on the composite electrode design losses 4.5 4.4 laboratories and industrial requirements compared Battery 4.6 laser groove - buried grid solar cell (BCSC) Exercise 4 learning situation five assembly of photovoltaic cells and modules...
