BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 40 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO reviewed hazardous waste management practices at Tinker Air Force Base (AFB), Oklahoma. GAO found that: (1) the base has been selling, transferring, or disposing of hazardous wastes rather than recycling them, as required by Department of Defense (DOD) waste management policies; (2) an industrial waste treatment plant at the base was not being used to full capacity; (3) rather than repairing a damaged portion of the treatment plant that could handle certain chemicals, the base is having the Defense Property Disposal Service dispose of them; (4) poor management of the plant has led to equipment problems, supply shortages, inadequate written policies, and improper collection, storage, and analysis of waste samples; (5) the base is not in compliance with regulations implementing the Resource Conservation and Recovery Act; (6) inadequate environmental monitoring on the base has caused the contamination of all of the major streams that flow across the base; and (7) the base has had problems with overcharges on hazardous waste disposal contracts. This item ships from La Vergne, TN. Paperback.
