paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 165 Publisher: Southwest Jiaotong University Pub. Date :2009-06-01 version 1. This book is based on the preparation of Southwest Jiaotong University. specialized computer train diagram of experimental teaching content prepared in an experimental instruction book. The book is divided into two ten chapters. the main contents include: train map elements; train diagram preparation of computer theory and methods; locomotive working diagram of the preparation of computer models and algorithms; train diagram system structure and function; train diagram databases establishment; train diagram preparation and adjustment; locomotive working diagram preparation; train diagram index calculation. This book is a transportation professional undergraduate experimental materials. but also for work in the rail transport technical staff to learn information. Contents: first train diagram preparation method theory and the meaning of Section II train diagram of train diagram graphical representation of the classification of train diagram III Chapter II Section I train diagram elements Section III outlines the station interval of time between the train track train operation diagram of the third chapter outlines the preparation of Section II passenger train diagram preparation...

Reviews

Very beneficial for all type of folks. It can be rally intriguing throgh studying time. You will like how the writer publish this ebook.

-- **Nathan Cruickshank**

Totally one of the better pdf I have at any time read through. It really is simplified but shocks within the 50 % from the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
